

ABLOY

60-0119 - SSS Information

The Abloy / Futura 60-0119-SSS is a stainless-steel handle set that has been tested with the EL160, EL520, EL518, EL532, EL166, MP520, MP518 and MP532

Tested to EN179 for use on emergency escape route doors, when used in conjunction with the locks listed above.

Supplied with 8mm solid spindle.

Manufactured from 19mm round bar with the handle mounted on a long plate internal and pull knob on long plate external, that includes a cut out for the cylinder on the external plate and a blank plate if no cylinder is required. The handle set is aesthetically pleasing and functional.

Finish: Manufactured from Grade 304 Satin Stainless steel.
