

HKC CAM-DBKT

Smart Doorbell Camera

The HKC CAM-DBKT is a smart video doorbell designed for seamless integration with HKC Security systems and the SecureComm Cloud platform. With full HD video, advanced motion intelligence, and 2-way audio, it provides reliable home security and clear communication with visitors. The device includes an internal rechargeable battery, night vision, and a plug-in chime with multiple tone options for added convenience.

Seamless Integration

Works effortlessly with HKC Security equipment and SecureComm Cloud, providing a unified and reliable smart security solution.

Clear Communication

Built-in microphone and speaker enable 2-way, real-time audio with full duplex and echo cancellation for clear conversations.

Smart Detection Intelligence

Cloud-based AI offers motion, human, vehicle, pet, and package detection, with configurable detection areas for tailored monitoring.

Reliable Video Performance

1080p resolution with a 154° field of view, 6m night vision, and digital zoom (x4, x8) ensure clear footage day or night.
